EDUCATION

Gettysburg College ..... Aug 2025 – *Graduating* May 2029
BS in Computer Science & Mathematics Gettysburg, PA
NCAA Division III Student-Athlete: Cross Country & Track GPA: 3.04 / 4.0
Relevant Courses: Data Structures & Algorithms, Discrete Mathematics, Object-Oriented Programming, Calculus I & II.

Our Lady of Good Counsel High School ..... Sept 2021 – May 2025
Cross Country & Track | Team Captain (2 Years) | Coaches Award Recipient Olney, MD
Member, National Honor Society

TECHNICAL SKILLS

Languages: Java, Swift, HTML/CSS.

Frameworks: SwiftUI, SwiftData, CoreLocation, CoreMotion, CloudKit, ActivityKit, HealthKit.

Developer Tools: Xcode, Xcode Cloud, CI/CD, GitHub, GitHub Copilot, Google Antigravity, Google Firebase, VSCode, Kaggle, Eclipse, Create ML, MacOS/Linux CLI.

SOFTWARE DEVELOPMENT PROJECTS

Vantage | Seamless Gym Tracker & Lifting Coach *September 2026 – Present*

- Designing a dual-device workout engine via WatchConnectivity and HealthKit, managing continuous HKWorkoutSession lifecycles on Apple Watch to stream real-time heart rate and active calories telemetry back to the user's iPhone.
- Engineering a local-first cloud synchronization layer using SwiftData, CloudKit, and Sign in with Apple, enabling secure and privacy-first authentication across all devices.

Fuelish | Lightweight Driving Tracker *January 2026 – April 2026*

- Created an automated trip tracking engine utilizing CoreMotion activity classification and CoreLocation, dynamically toggling between low-power and high-accuracy GPS to minimize background battery drain.
- Built multi-surface telemetry experiences using ActivityKit and Apple CarPlay to show glanceable information to the user while driving like speed, duration, and trip cost.
- Integrated on-device LLMs via Apple Foundation Models to summarize driving patterns into contextual coaching insights and visualizing fuel economy via SwiftCharts.

WORK EXPERIENCE

Head Pool Lifeguard *Summer of 2025 & 2026*
High Sierra Pools – Clarksburg, MD

- Oversaw daily pool operations and lifeguard performance while ensuring patron safety across the facility.
- Trained new lifeguards on emergency procedures, facility rules, and guest services.
- Monitored pool water chemistry through hourly testing of chlorine and pH levels, adjusting chemicals to meet health department standards.

Pool Lifeguard *Summer of 2023 & 2024*
Georgetown Aquatics – Damascus, MD

- Ensured patron safety through vigilant pool monitoring, clear communication, swift emergency response, and necessary first aid administration.
